YKK Snap Fasteners America Inc.

Founded in 1895, for more than a hundred years Universal Fasteners was a cornerstone of the United States' apparel fasteners manufacturing base. In 1987, YKK, the world's foremost fastening manufacturer, joined forces with us to create an even stronger company. Today's result is YKK Snap Fasteners America Inc. (YKK Snap Fasteners). Our manufacturing capacity has doubled, and we've undergone expansions in all technology and service areas.

As a member of the global YKK Snap and Button Group, our association with sister companies around the world has created the largest network of fastener and trim manufacturers anywhere. At YKK, service, quality, technology, and innovation are key to maintaining a level of service unsurpassed by anyone.

Whether you are looking for high-fashion specialty fasteners or an innovative way to ensure quality attachments, YKK has the experience, products and equipment to elevate the quality of any application.

Buttons

Whether you require a high fashion button design or a utilitarian, hard working, long lasting button, it's all one and the same with YKK Snap Fasteners. We have the types and styles that fit all your requirements.

YKK Snap Fasteners manufactures three basic types of buttons: Metal Collet, Swivel Collet, and Nylon Collet.

Our basic button line is offered in combinations of nylon, steel, stainless steel, brass, and other alloys.

Spread The Word!

YKK Snap Fasteners has ISO 9000 and ISO 14001 certified quality systems in place throughout our corporate and manufacturing operations. As part of the YKK Global Snap and Buttons Group, YKK Snap Fasteners has the strength to support your fastener needs. We are capable, ready and willing to support your requirements with quality products, fashionable designs, technically advanced attaching equipment, competitive pricing and personalized service.

Burrs

Burrs are offered in eight basic styles that are attached using a solid metal rivet. Additional styles are designed to be attached with the famous 2-Prong Fastener which can be used on a wide range of fabrics and applications. All of our burr and rivet combinations offer maximum attaching strength with high quality visual appearance. Available with personalized logo designs, they are made from a variety of metals with coordinated finishes to enhance their look and performance.

Snapet® Ap

Secure attachments with a smooth, light snap tension, Snapet® is perfect for infant and children's apparel. Snapet® is designed for maximum attaching strength on knit fabrics at a most competitive cost. Quality, security and safety are yours when you use Snapet® prong ring attached snap fasteners.

Snapet® Snap Fasteners are available in 15 and 16 ligne sizes. Each variation is available with lead-free painted prong rings or capped prong rings with special optional features by product size. YKK Snap Fasteners America offers prong rings and capped rings in more than 800 colors and paint-to-match shades. Special designs and personalized logos are available on capped prong components.

Attachments can be made using YKK Snap Fasteners' approved pneumatic footpress, electric flywheel press, fully automatic model E attaching machines, and a variety of optional Model E equipment.

Hook & Eye Ap

The #8 hook and the #85 eye are the industry standard for quality slacks, trousers and dress pants. That's because they offer a low silhouette and crush-resistant design with an increased gripping area. YKK Snap Fasteners ELITE® hooks and eyes are constructed to stay attached under the most demanding applications.

YKK Snap Fasteners ELITE® hooks and eyes are manufactured from two base metals: brass or steel. Brass base components are finished with bright nickel or black nickel plating. Steel components are usually zinc plated, or as an option, nickel plated. Both the #8 hook and #85 eye are available with standard or long legs. Either variation is designed with a low profile and crush resistant geometry.

Tack Fastener

The SX System requires no pre-punching before attachment and ensures a secure attachment on the widest range of fabrics and garment styles. Components will not rotate or button hole through properly supported applications. As an added feature, because of the fastener style and the attachment process, assembled components offer a near water tight attachment on special applications and fabrics.

- Traditional YKK quality. The brand you can trust.
- Self piercing capabilities in a variety of materials.
- Innovative, fully automatic attaching equipment.
- Global coverage by an experienced field service team.
- Strongest lateral shear strength in the industry.

SP Snaps Ma Au In

SP all plastic Snap Systems are changing the field of application for traditional snaps everyday. SP Snaps are finding their way onto applications ranging from; apparel, automotive, industrial, medical, to retail packaging and home décor. Available in sizes ranging from 8.9 mm to 15.2 mm with varying snap actions and an ability to perform well under adverse conditions, these fasteners provide a refined appearance that make SP Snaps a perfect choice.

YKK Snap Fasteners understands our reputation is built on quality products and outstanding service. Our customers remain loyal because we go beyond just selling hardware. Our innovative approach to our products and services distinguishes us from traditional fastener suppliers. Through partnership we work together to ensure safe and secure attachments.

We can offer a variety of services to achieve these goals. Through our YSAP (YKK Secure Attaching Process) Program, we review applications before recommending hardware. In this process we also make recommendations as to how the application may be modified to ensure minimal issues in actual production.

We also offer attaching services which can reduce your operating cost and provide safe and secure attachments. If your product requires hardware attached to a strap, tab or tape, we can provide the finished item for you. By using this service you can feel confident the attachments are made to the proper specifications to ensure strength and full functionality.

Please contact our representatives so that we may show how YKK Snap Fasteners can work with you in providing the solutions and outstanding products required in today's competitive markets
