NOTES

A large rectangular area with a black border and horizontal lines, intended for handwritten notes.

For over 40 years and throughout three generations we have been a master stocking distributor for the industry's most respected and highest-quality fasteners, injection molded components, and other raw material substrates.

Our partnerships with industry stalwarts are rooted in transparency and loyalty—most have been around since we opened up shop. TRW, ARaymond Tinnerman, Kydex, DOT/Scovill, ITW, Palnut, Stimpson, Johnson & Hoffman, and YKK Snap Fasteners stand proudly in the lineup. Likewise, just like our partnership roster is deep and broad, so is the list of industries we serve. We're proud to impact the aerospace, textile, automotive, marine, construction, military, and medical industries, just to name a few.

President and Owner, Shane Bearly is proud to have helped build Index Industries to become the trusted advice and the fluent translators across companies and industries, a reputation that rests on a resolute determination to provide excellent service to all.

In support of our friends and partners, we are a member of the Industrial Fabrics Association International (IFAI), Pacific Western Fasteners Association (PacWest), Western Association of Fastener Distributors (WAFD), and National Association Wholesale Distributors (NAW) and operate to these organizations' codes of practice. An essential requirement of the continuing maintenance and development of our quality objectives is the implementation and maintenance of a Quality System registered to ISO 9001:2015.
